PROFESSIONAL EXPERIENCE

Full Stack Engineer

GIFTEDHANDS TECHNOLOGIES

March 2018 - Present

Built a user management application for a cooperative society to manage member savings, loans and weekly meeting reports. Developed an e-commerce platform for therapeutic products using WordPress and Elementor. Developed a web crawler for an application that finds professors with relevant expertise for specific courses at any UK university.

TECHNOLOGIES: NodeJS, Django, Laravel, ReactJS, VueJS, Vuex, NextJS, Python, Reat Native, Typescript, Bootstrap, TailwindCSS, SCSS, MongoDB, PostgreSQL, Wordpress, Elementor, Amazon EC2, DynamoDB.

Senior Frontend Engineer

AFRICA PRUDENTIAL PLC

March 2022 - May 2023

Contributed my expertise in developing a multi-tenant application for managing shareholders. Converted UI mockups into quality and reusable code. Collaborated with back-end developers, QA testers, and product managers to implement business requirements. Managed specific application modules and ensured user-friendliness and mobile responsiveness.

TECHNOLOGIES: ReactJS, Ant Design, SCSS, Jira.

Full Stack Engineer

LIFESTORES HEALTHCARE

November 2020 - September 2021

Collaborated with other engineers on developing an ERP system. Worked on several features of the system including the admin dashboard, customer feedback module, product order return functionality, chain management system, payment system and many other features and updates.

TECHNOLOGIES: Django, GraphQL, ReactJS, SQL, Docker, EC2, Jenkins, Jira, Pivotal Tracker, StyledComponents, Dexie, Material UI

Lead Software Engineer

NEURAL TECHNOLOGIES

November 2018 - December 2020

Participated in the requirement analysis phase, architecture and database for a cross-border financial software. Built backend APIs from start to finish and deployed them to Heroku Cloud Platform. Designed and developed a Feed Formulator Algorithm for farm animals. Manage AWS infrastructure.

TECHNOLOGIES: JavaScript, Python, NodeJS, ReactJS, Flask, SCSS, AWS Amplify, Jira, Pivotal Tracker, Trello.

Associate Software Engineer

ASH NELSON PARTNERS

May 2019 - June 2020

Contributed my expertise to developing a sentiment-based Brand Reputation and Performance System. Built and deployed microservices and integrated them into existing solutions. Programmed a script for an ETL pipeline using Python and AWS. Contributed to software engineering expertise in the development of products using Agile methodologies. Systems Integration and hands-on Development of Enterprise AML Applications using JavaScript and Python. Planning, Designing, Testing and Deployment of Anti-Fraud Solutions for Commercial Banks and Fintech organisations. Deployment of OEM Cybersecurity equipment.

TECHNOLOGIES: Python, Django, PostgreSQL, AWS S3 and EC2, Elasticsearch, Selenium, Scrapy, Tweepy, Kibana, Bitbucket, Jira.

Web Development Intern

HIIT PLC

April 2017 - July 2017

Designed static websites using modern web technologies. Honed my Graphics Design skills for application interface development. Collaborated with other interns to work on group projects. Acquired customer relations and representative skills.

TECHNOLOGIES: JavaScript, HTML, CSS, CorelDraw, Photoshop.

EDUCATION

B.Sc., Computer Science

UNIVERSITY OF THE PEOPLE

2020

Associate Degree, Computer Science

YABA COLLEGE OF TECHNOLOGY

2016 - 2018
